Seeding Well Forward

The past ten days have seen the drill supply all over the country. The weather has been very favorable, and the ground is now in the best possible condition for the crop, though it is only lately that some of the land could be worked, owing to the amount of moisture in the soil.

Winter seeding is now almost completed, and oats and barley will be seeded within the next two weeks. The early sowing which is already sprouting, conditions being very favorable for germination. The weather has been warm and sunny with a tendency to occasional showers.

A considerable amount of spring plowing is being done, and dealers report an active demand for implements.

The irrigation water will be turned on for the season on May 1st, and the water is now running through the main canals.

Under conditions here improved greatly during the past week. Several of the main roads have been cleared since the snow melt, and the big Bow Valley municipal grader will be on the job shortly.

Local Notings

Mr. R. S. Stockton returned on Monday last from his trip in Montana.

Mrs. H. A. Bush is at present visiting her mother, Mrs. Brulier, south of Strathmore.

Willie Gray is employed at the C.P.L.D. as a room-maid for Mr. G. H. Patrick.

George Auld has been appointed red-man-chauvin for Mr. G. H. Patrick.

Mrs. O. H. Thibodeau of Rocky Mountain House, Alta. has been visiting her daughter, Mrs. M. C. Benz.

Notice—All persons supplying goods or material of any kind to the Municipal District of Bow Valley, No. 219 are requested to render accounts monthly.—W. G. Way, Sec.-Treas.

Strathmore Macons are holding an Informal Social and Dance in the Opera House on Friday evening. May 3rd for the entertainment of member of the craft and lady friends.

Dr. and Mrs. Girvin and family arrived back in Strathmore on Wednesday looking fresh and fit after their three month holiday at Ocean Park, California.

W. F. Gratton, a former member of the C.P.L.D. Staff here, and now employed with the Brooks District, was in town over the weekend.

A son was born to Mr. and Mrs. Dan Fraser on Tuesday, and is named.

Miss Simpson, a former member of the teaching staff at Strathmore Junior School, has accepted a position at Honolulu.

A daughter was born to Mr. and Mrs. W. Swanson, Brooks, on Wednesday last week. Birth was at one time C.P.R. Mackintosh here.

A son was born to Mr. and Mrs. J. E. Galpin on Saturday.

An interesting visitor here the latter part of last week was Sergeant Blais, of the Fiji Islands Overseas Force. He has been in the war almost since the start and though wounded four times has escaped serious injury.

He is the possessor of the Military Medal and the Fiji Star. Sgt. Blais is on his way back to Fiji. He is well-known locally, having been here in the years 1914 and 1915 as member of the firm of Blais and Partners. The Fiji force wear a uniform similar to the Australian, and their rates of pay are similar. His action at that time in saving the soldiers from the Antipodes would turn a Canadian Sergeant green with envy.

Pat Huchings, R.N.W.M.P. passed through here on Wednesday on his way to Drumheller, where he is posted at present.

Pat Huchings only recently returned from overseas. He was at one time in charge of the post here and was at Drumheller at the time when the disturbance took place among the foreign element on the meadows. His action at that time in saving the soldiers from the Antipodes would turn a Canadian Sergeant green with envy.

Back to "Civvies"

Several men local men arrived back on Wednesday. He enlisted in the 2nd Batt., but owing to serious illness after joining, was not allowed to proceed overseas, and has since been engaged in guarding, interned alien enemies in Ontario.

Sgt. and Armstrong also arrived on Wednesday. Andy left the town in the early days of the war, has been in Germany, interned alien enemies in Ontario.

Pie F. J. Anderson arrived back with the 1st Battalion in Calgary on Wednesday and reached here on Thursday. He saw service in France and Belgium last summer, and went into Germany with the army of occupation. He is now staying with his parents, Mr. and Mrs. J. Anderson, Strathmore.

Pie W. F. Stride also arrived in Calgary on Wednesday with the 1st, and is now with Mr. Anton Person, Cherdale.

Sgt. Arnold, 1st C.M.R.'s arrived here on Monday. He enlisted very early in the war, and had nearly four months' service in France and Belgium, but escaped being wounded. Previous to enlisting, he was employed on Dr. Griffin's ranch south of town.

Col. P. J. Daly, 27th Battalion, C.M.G., D.S.O., and the possessor of several other honors, arrived back in Calgary last week. Colonel Daly at one time owned a big farm about twelve miles north of Strathmore, and is well known locally.

Baseball Doings

It is now perfect baseball weather, and the fans are looking forward anxiously to the first match. Strathmore shows every prospect of having a good team this year, and the boys are all busy practicing.

The year, the baseball diamond is to be in the east end of the park, and M.D. Bow Valley has agreed to give a new piece of the big ground to skin the diamond.

A deputation from the Club interested the Town Council last night on the question of financial support, and with regard to fixing up the park in the way of benches, etc., but the result of the negotiations was not known at the time of going to press.

Tonight an executive meeting of the club will be held in W. C. Brown's office to make the final arrangements so that the games can start with the opening of the half holiday season.

School Fair

All the schools in this district have been notified with regard to the School Fair to be held this fall, as reported last issue, and the children are all enthusiastic over the scheme, while in most cases teachers and trustees are all entering wholeheartedly into it. The School Fair is a serious attempt to bring our educational system into close touch with rural life, and the secretary, Rev. J. P. Berry, is desirous that every school in the district should make application for seeds at once, so as to get them in good time for planting.

Hospital Dance

To help out the funds of the Strathmore Hospital, a dance will be held in the Opera House on Friday evening of this week, commencing at 8:30 p.m. Music will be furnished by Hurtle's Orchestra, and we hope to see a very large attendance. Tickets are now on sale locally.

Seeding Time

If you are delayed with this important operation you may have to put a couple of extra teams to work. We can equip these with

PLOW HARNESS

that will, for high quality exceed, and for price compare favorably, with any in the West.

COLLARS IN ALL STYLES AND PRICES

The season will be here shortly when you will need an Oil Stove. We have both the

Red Cross Dance

Under the auspices of the Strathmore Red Cross, a highly successful dance was held in the Opera House on Friday evening. There was a very good attendance, and the funds of the Red Cross benefited to the extent of \$20.00 over and above expenses. The hall was beautifully decorated, and live music was supplied by Hurtle's Orchestra. Supper was provided by the ladies, and ice-cream, etc., was on tap.

The Red Cross ladies are assisting at the Hospital Dance which takes place on Friday evening of this week.

Wednesday Half-Holiday

For the coming year the storekeepers Wednesday half holiday will have to be regulated, as before, by voluntary agreement. The Attorney General has turned down the attempt of the Council to amend the law by cutting out the offending clause with regard to the hour of opening up the morning.

To do this, he stated, the by-law would have to be re-enacted. Of course this may be done yet, but it will take time, and the half holiday is intended to start from the first Wednesday in May.

It is likely therefore that the stores will close each Wednesday at 1 p.m. from May to August inclusive, by voluntary agreement. It is intended to have a ball game or sports of some kind on the Wednesday afternoons.

Y. M. C. A. Receipts

According to a statement prepared and issued by the National Council of the Y. M. C. A. regarding the receipts of the 1918-19 Trustee Fund, the following amounts have been received from the different communities of the Calgary district up to March 31st, 1919:

Acme, \$2,230.75; Aldine, \$9,751.00; Banff, \$1,675.00; Bonfield, \$204.00; Bowden, \$10,219.00; Calgary, \$25,962.75; Canmore, \$401.50; Carleton, \$1,514.00; Cochrane, \$901.00; Coon, \$140.00; Chinook, \$1,217.40; Chumby, \$50.00; Cochrane, \$714.00; Crangville, \$1,768.00; Drumheller, \$2,544.35; Edmonton, \$7,479.20; Hanna, \$2,486.00; Inglewood, \$1,112.12; Langdon, \$148.19; Lacombe, \$6.00; Manning, \$2,544.35; Oxy, \$2,298.25; Ponchaillou, \$480.00; Stettin, \$206.30; Standard, \$2,240.00; Strathmore, \$3,260.65; Swainsville, \$2,500.00; Tuxford and Hockley, \$1,000.00; Three Hills, \$8,042.00; Tipton, \$3,464.00; White, \$37.00; Youngs, \$1,000.00. Total, \$99,677.35.

If After Eating You Have Pain, Stomach Needs Aid

Specialists who have devoted their lives to the treatment of all the ills which people complain about, have found that there is no stomach ailment which does not respond to the aid of Dr. Williams' Pink Pills. You may suffer from indigestion, constipation and other troubles which come on after your last meal is eaten. You may find the healthful vegetable remedy like Dr. Williams' Pink Pills. This old-time family medicine is a wonderful corrective of all digestive and stomach disorders.

There is an mystery about the quick effect you get from Dr. Williams' Pink Pills. They simply supply the additional aid required by the system to enable it to do its work correctly.

You'll enjoy your meals, develop your appetite, feel better, be free from headaches, constipation and indigestion, all these benefits come to all that use Dr. Williams' Pink Pills. Every man or woman with a stomach ills is advised to spend 25 cents for a box of this wonderful vegetable remedy.

Malay Yields Many Commodities

Producing Practically the World's Supply of Tin and Rubber

Rubber, the camphor, tinapples, clove-nutmegs and kindred products are good old-fashioned resources. How many people stop to think where these everyday things come from? Originally? Rice and elephants, shellfishes and crocodiles, pineapples and pandanus trees, coconuts, rattan, sugar cane, and all the rest. The Malays are Mohammedans, but at the same time they are extremely superstitious and have a considerable respect for the devil and other evil spirits, as well as ghosts. In fact, they are so superstitious that they call their fields, which they call "Balak," after the evil spirits which are supposed to inhabit them. The rice is sown just after sunset on the bank of a river. Every night the Malays go to the fields and light a candle. These are placed on the ground with numerous other offerings of food and drink. They also burn incense and light white flags which have been brought, one by every piece of the Malay Peninsula.

The Malays then have a feast on the cooked foods and return home in the morning. The next morning they go to the fields and light a candle. They also burn incense and light white flags which have been brought, one by every piece of the Malay Peninsula.

Only an insignificant part of the country has been brought into the modern world, except perhaps by the "jungle men." The Malays themselves live along the coast and the banks of the rivers, rarely, if ever, venturing into the interior.

For the last six years the Malay has been living in the jungle with a party of Malays, carrying rubber and tin. The Malays have been driven out of the interior and into Siam, for the British government has been unable to get as long as a mile into the interior.

The first part of the journey was made by rubber. In two days the Malays had made a good start and it became necessary to hire boats and mules. Passing up the river, they saw and then would be seen trees full of monkeys, trailing on with their tails. Directly the monkeys saw them they would swing from branch to branch, crashing through the leaves, taking to the trees and then to the ground. They would then swing from branch to branch, crashing through the leaves, taking to the trees and then to the ground.

Often these monkeys would come down to the ground and take to the trees. They would then swing from branch to branch, crashing through the leaves, taking to the trees and then to the ground.

Often these monkeys would come down to the ground and take to the trees. They would then swing from branch to branch, crashing through the leaves, taking to the trees and then to the ground.

Often these monkeys would come down to the ground and take to the trees. They would then swing from branch to branch, crashing through the leaves, taking to the trees and then to the ground.

Shorthorns for Cross-Breeding

Shorthorn Blood a Decided Advantage in Winning Premier
Horns. The value of the Shorthorn for cross-breeding of the Australian Shorthorn and a large proportion of the other breeds in the selection of the best blood in the country, says Shorthorn blood in their own words.

Choosing the Herford and Shorthorn has produced some of the most noted herds in the Pacific coast of Texas. Shorthorn cattle, says Sanderson.

Perhaps the most noted herd in that of the Shorthorn with the black, polled cattle of Scotland, the result being the so-called "Scottish Shorthorn," which is very popular.

A great many years with both herds and herders in Great Britain, the cross has a growthiness and readiness to fatten which places the cattle in a high position. The Shorthorn, however, has been known to produce a calf in a year.

Unfortunately for the Shorthorn, it does not stamp its color upon its offspring. The Shorthorn, however, has been known to produce a calf in a year.

Unfortunally for the Shorthorn, it does not stamp its color upon its offspring. The Shorthorn, however, has been known to produce a calf in a year.

After Five Years Of Heart Trouble

Mrs. Brewer, Turned to Dodd's Kidney Pills. New She Is Telling Her Friends Who Advised Her to Use the Good Dodd's Kidney Pills Have Done. Mrs. Alice, April 28th, (Seattle). Advised by her friends to use Dodd's Kidney Pills for heart trouble, which she had suffered for five years, she has been benefited from the treatment.

Heart trouble is nearly always caused by defective kidneys, which fall in their work of sending the impurities out of the blood. The weak heart is made of two kinds of muscle, the left and the right. The left is the one to pump blood with the greatest force to all parts of the body. The result is, of course, weakness.

That Mrs. Brewer's trouble came from her kidneys is shown by her symptoms. I suffered from heart trouble, gravel, stiffness of the joints, headache and headache," she says. "My sleep was broken and hurried. My skin itched and burned. I was nervous and my blood failed in one of my kidneys."

Japan Offers to Curb Reds. If She Receives a Mandate for India. Paris. The Japanese general staff has made an offer to Premier C. T. A Winter's Harvest Make Money by Feeding Stock During the Winter Months

Many farmers in Western Canada make considerable money by feeding stock during the winter months. In a typical example what is often done along these lines. Last October Mr. George W. Quinn, who owns about 100 acres of land near Macgregor, Minn., purchased seven hundred head of steers on the Winnipeg market at an average cost of \$1.00 and a half cents a pound. They were Shorthorn and Herford grades, and their average weight was nine hundred and seventy pounds each. After four months' feeding they increased about one hundred and fifty pounds each in weight and were sold for five and a half cents a pound, yielding a net profit after deduction of freight, commission and cost of feeding, of \$25.00 to \$40.00 per steer.

For many years Mr. Quinn has made it a practice to feed a few steers on his farm each winter, and for this purpose grows plenty of alfalfa. He has proved by experience that the best time to feed is in the autumn, when the steers are on coarse winter grain as corn. He does not pump his cattle, but feeds them on alfalfa and corn. The steers will eat a great deal of the time, providing they change grain sheds for alfalfa.

When they come from the market, the steers were put on timothy and alfalfa. The steers were also sold about six weeks. From December 1 they were given a gradually increasing ration of alfalfa and corn. The total gain, which amounted to about 150 pounds, was made over the winter period, is indicative of the feeding value of Western Canadian crops and grasses.

Seeking Wheat
To Resist Black Rust. And Mature Early Enough to Escape Fall Frosts.

Saskatoon, Sask. For many months experiments have been under way at the college of agriculture, university of Saskatchewan, to find a wheat which will resist black rust, and at the same time mature early enough to escape the fall frosts. The results of the experiments are as follows: The wheat which will resist black rust, and at the same time mature early enough to escape the fall frosts. The results of the experiments are as follows:

Shock Left Her Weak and Nervous COULD NOT SLEEP

When the system receives a shock of any kind, the heart becomes weak, the nerves unstrung, the appetite poor, faint, and weak feelings come over you, you can't sleep at night, and you wonder if life is worth living. All these who suffer from nervous shock we would recommend Dr. Williams' Pink Pills for Pale People. It is ready to tone up the entire system and strengthen the weakened nerves.

"I was told that Dr. Williams' Pink Pills for Pale People would cure my nervous shock. I began to take them and in a few days I was able to sleep at night. I was told that Dr. Williams' Pink Pills for Pale People would cure my nervous shock. I began to take them and in a few days I was able to sleep at night."

District & U.F.A. Notes

Cheadle Notes

Cheadle U.F.A. will hold a meeting on Wednesday, May 7th at 8 p.m.
[A baseball meeting was held on Saturday the first test to organize and elect officers for this year. There was a good attendance which indicated lots of good material for a team. The manager, Grant Craig, wants the boys to get out and practice, and it there are any players working in the district, they are requested to come out too and try for a place on the team.]

The Baseball team are going to have some dances and a Box Social soon which will be announced later. H. Nicholson and family were visitors during the week end to Calgary.

There was quite a crowd from here at the Red Cross Dance at Strathmore which was held on Friday, and all report a good time. Leslie Miller and bride, returned from overseas.

Namaka Notes

Miss Loma Kuopp of Cheadle, spent the week end as the guest of Mr. and Mrs. White.

Mr. Roy McKnight, a Namaka man, spent a few days in town last week.

The Night Owl Club held their meeting at the home of Mr. and Mrs. J.B. Sims, an enjoyable evening being spent. Music and games took up the evening, till the members had all assembled, then an interesting debate took place, the subject being horse versus motor power.

A large number of friends paid a surprise visit to Mr. and Mrs. Biggar last Thursday night in the form of a chivaree. After putting over a good "barrage" which lasted about fifteen minutes, the party began admiring the house. The chivaree was a huge success, games, cards, took up the evening, after which a dainty tea was served by the ladies of the party.

Carseland Notes

On Monday evening a very successful dance was held in Simon's Pool Room, under the auspices of the Baseball Club. About 125 people were present, and the gross proceeds were over \$80, while the Club will benefit to the extent of \$40, after paying expenses. Hattie's Orchestra provided the music while a fine supper was served, donated very kindly by the ladies of the town.

The Baseball Club intend holding another dance in about two week's time.

Mr. John Davis returned from Rochester, Minn., last week. He had undergone an operation there and is feeling much better now, though still weak.

All the wheat in this district is now seeded, and the early snow which is already changing green. Prospects never looked better for a bumper crop.

The river is gradually getting higher, and the tery is in full operation, many people coming across the river now to do their business in Carseland.

Dr. Kerby, of Mount Royal College, delivered a fine address here on Sunday evening under the title "The New Day". He also conducted services on Sunday afternoon in the Union Church. There were large congregations at both services.

Mr. Lord had an accident on Saturday on the south side of the river, stripping the gears on his car. He had to be towed home.

The independent engineer whom the Government promised that deputation from here last week would be down shortly to look over the bridges is not here yet, but is expected anytime now.

Trap Shooting

The opening shoot of the Season of the Strathmore Gun Club will be held at the Gun Club Grounds on the first Wedne day, hall holiday, May 7th.

Mr. F. Morris, of the Dominion Carriage Co. who has recently arrived with an exhibition of his marvellous ability with a gun has promised to be here for the occasion, so we know the people of Strathmore will be pleased to accord him a welcome, and all are heartily invited to be in attendance. The shoot will commence at three o'clock. Prizes will be awarded successful contestants. Everybody invited to participate. Do not forget the date, May 7th.

Help the Y.M.C.A. Finish its Work For Soldiers

Help the "Y" Construct the Manhood that will Re-construct Canada

ALL the world now knows that the Red Triangle of the Y.M.C.A. was the "Sign of Friendship" to thousands of your brothers, sons, nephews, cousins and neighbours' boys in the last four and a half years. Wherever the Canadian Soldiers went, the "Good Old Y" went too. And now it is coming back home with them!

For the support which has made possible the war work of the Y.M.C.A. we thank you. Your money has been well expended. We have rendered full account.

We ask now your continued sympathy and support for Red Triangle Service for our Soldiers during demobilization, and for Y.M.C.A. work for Canada generally during the Reconstruction period. The Annual Red Triangle Campaign will be held throughout Canada May 5th to 9th, 1919. The objective is \$1,100,000.

For Our Men Returning

For the soldiers and their dependents, returning from overseas, we have provided as follows:—

1. A Red Triangle man on board every ship when it leaves Great Britain, with a full equipment of games, gramophones and records, single letters, literature and articles. Where possible, also a piano or an organ. Lectures, concerts, sing songs, instruction in Government regulations, plans, and Sunday services.
2. Red Triangle comforts and facilities for the men on arrival at Halifax, St. John, Quebec and Montreal, including out-of-pocket, with free drinks, free canteens, cigarettes, candy, etc.
3. Red Triangle men on every train to provide regularly free drinks, available at all stations, for the soldiers, their dependents, and sing songs and furnish information.
4. Red Triangle free canteen service, information bureau, etc., at each of the 22 Regional centres in Canada.
5. Red Triangle Clubs in the principal cities of Canada in the shape of large Y.M.C.A. hotels to furnish beds and board at low rates and to be a rendezvous for soldiers.
6. Twenty-five Societies to supplement Red Triangle service in Military Hospitals, Camps and Barracks throughout Canada.
7. Tickets entitling soldiers to full Y.M.C.A. privileges for six months at any local Y.M.C.A.

In addition to our work for the returning soldiers, we have to maintain the Red Triangle service to the full for the soldiers in Europe, as well as the work of special societies in Northern Russia, Palestine and Poland.

Y.W.C.A.

For the wives and children of overseas, dependent upon Canadian soldiers, and for Y.W.C.A. work in Canada generally, a sum of \$175,000 from the Red Triangle Fund will be set aside for the Dominion Council of the Y.W.C.A. which is caring for the soldiers' wives, and their little ones on the long journey from Liverpool to Canada, and is also extending its work for Canadian girls.

Put their sake also be generous when you make your contribution.

FOR the sake of our victorious soldiers and their dependents, and the happiness of their home-coming; for the sake of our future citizens, our teenage boys; for the sake of rural life in Canada; for the sake of the social betterment of the toilers in factory and workshop; for the sake of lonely men and boys in our mines and forests; for the sake of Christian Society and Canadian manhood—we appeal to you. Give us your contribution, little or big. Be as generous as you can.

Hand your contribution to the canvasser when he calls, or if you live where it is difficult for him to call, send it by check, money order or registered letter to the National Treasurer, Red Triangle Campaign, 120 Bay Street, Toronto.

Please Note:

We are not asking for money to carry on the work Overseas, with the Army in Great Britain, France or Belgium. That work will continue at its maximum for some months, financially provided for by the liquidation of our assets Overseas, and will not terminate till the last man has sailed for home.

For Canada's Manhood

The Reconstruction program of the Y. M. C. A. includes the following vitally important developments:—

1. An increased service to 200,000 teenage boys in the Dominion—the development of Canadian Standard Efficiency Training, little study groups, summer camps, convalescence service for High School boys, for working boys, in the towns and cities for boys on the farm and for boys everywhere, who have lacked opportunity for mental, moral, physical or social development.
2. Insurgency of Y.M.C.A. work in the country, and the smaller towns and villages, on a plan of country organizations. This will include the establishment of Red Triangle centres for social, recreational and educational work among boys and men, in cooperation with the churches.
3. The promotion of Y.M.C.A. work among Canada's army of workers in industrial plants, both in Y.M.C.A. buildings and in the factory buildings, organized plans of country organizations. This will include the establishment of Red Triangle centres for social, recreational and educational work among boys and men, in cooperation with the churches.
4. The establishment of the Red Triangle in isolated districts where lumbermen, miners and other workers hold the front trenches of industry.
5. Besides these main fields of increased activity for 1919, we have to provide for military work, for the training of new cadets and students and for our campaign to encourage physical and social education. Under all our work we place the fundamental foundation of manly Christianity.

WEDNESDAY, APRIL 30, 1919

A Word from the Editor

It is just exactly three months
ago since the editor of this Journal
got back from overseas and
restarted publication, after an
absence of three and a quarter
years, for the last six months of
which period the Standard averaged
about one publication in every two
months. The Standard is now
properly on its feet again, and we
wish to take this opportunity of
thanking all our readers and adver-
tisers for the hearty support they
have given us. In many cases
subscription and advertising ac-
counts had not been rendered for
years, and it was rather exasperat-
ing to be asked to pay a bill that
had probably been forgotten about
or had never been previously ren-
dered, but those to whom we had to
present these back accounts have
generally recognised the difficulty of
the situation, and have helped us
considerably in getting things into
shape again, by the way they
accepted it.

We are running this paper with

the idea of making it a real public
utility, something that will advance
interests of readers and advertisers
individually and the district as a
whole, and every movement that has
for its object the betterment of
social, moral, or business conditions
will find hearty support in its
columns. Our scheme of district
correspondence is working out well,
despite the difficulties of getting
time to write correspondence during
the reading period, and we thank
our correspondents for their support
and hope for its continuance.

We have cleared away most of
the deadwood that has hampered
our efforts, and hope, with the con-
tinued support of the public, to
introduce improvements from time
to time which will make the Stand-
ard a paper worthy of one of the
best farming districts in Alberta.

In conclusion, we would ask our
readers, so far as they can, consis-
tently do so, to give their support
to the advertisers of the Standard.
As far as the amount charged for
the subscription is concerned, it
does not, under present conditions,
cover the cost of even the raw
paper and mailing, and the bulk of
the revenue comes from the adver-
tising. The merchant who adver-
tises, does so because he believes
in the quality and value of his
goods, and he can always give
you a better deal than the merchant
who, though he may recognise the
value of advertising, and the
benefit of a newspaper to a com-
munity, yet permits prejudice or
spite to prevent him putting the
merits of his wares before the
public. The public likes to deal
with the live wires, and the live
wire will be found among the
advertisers.

The Standard commenced publi-
cation in October, 1909, under the
management of the present editor,
so we can already claim to be
among the old-timers, and know the
needs of the district. We trust to
have the continued support of the
district generally, and will do
everything we can to merit that
support.

The Standard commenced publi-
cation in October, 1909, under the

support.

Local Shop Installs Electrical Device

Local Motor Car Owners whose
cars are equipped with electric
starting and lighting systems will
be interested in a remarkable device
just installed by Harold B. Bell,
which he recently purchased from a
large Chicago concern. A most in-
teresting demonstration was made
showing AMBU, this instrument,
attached to a car at the garage, re-
cently—it was weird to see the al-
most human intelligence of the
AMBU as its indicating arrow slowly
moved this way or that on the
dial showing certain conditions nor-
mal or the location of trouble or
faults in the electric system of the
car.

It is said that serious damage-
ments of electric starting and light-
ing systems have been located and
repaired in 30 minutes through the
aid of AMBU.
Harold Bell seems very much in-
terested in showing the instrument
to any one and it is fascinating to
see it in action.

TOWN OF STRATHMORE ASSESSMENT ROLL

NOTICE IS HEREBY GIVEN that
the Assessment Roll of the Town of
Strathmore for the year 1919 has been
prepared, and is now open for inspec-
tion at the office of the Town Clerk,
in the Town of Strathmore, from 10 o'clock
in the forenoon to four o'clock in the
afternoon, on every day which is not
a public holiday, except Sunday, and
on that day from 10 o'clock in the
morning to 12 o'clock in the noon-
day, and any taxpayer who desires to object
to the assessment of himself or of any
other person, must within thirty days
after the date of this notice, lodge his
claim in writing at my office.
Dated this 29th day of April, 1919.
F. R. LILLY,
Assessor.

A Burning Question

After the fire the question
is not "Was it insured?" The
question is "What is your
insurance?" Insurance is a fine
thing but a home that doesn't
burn is far better.

Our connection with the
Strathmore Fire Insurance Com-
pany enables us to offer you a
fine prevention service which
will surround your home and
your family with every pre-
caution that it is humanly
possible to take. It's worth
knowing about.

CPR. DEMONSTRATION FARM
STRATHMORE

In a demonstration at Martinsville
this week in which nine machine
took part, the Moline Universal
combined in 1 hour and 40 min-
utes three acres five minutes ahead of
its nearest competitor, and the
tractor was pulling three plows instead
of two as for the. The official time
showed that it plowed an acre in
fifty and one-half minutes, at a cost
of fifty-six cents per acre, for fuel.

TO SUBSCRIBERS

Possibly you found a notice posted
in a recent issue stating that your sub-
scription is in arrears, or has expired.
We want you to renew promptly, and
we are going to give you a paper during
the next twelve months that will be
worth more than the amount you pay
for it.
Owing to the absence of the pre-
vious renewal notice have not been
sent out for a considerable time. It
may be also that you have made pay-
ments that have not been credited
owing to misapprehension of the office
staff. If you think this is so, come in
and let us adjust it with you. We will
give credit for the six months during
which the STANDARD did not appear
regularly.
We are using a new, compact,
eight-page paper now, and com-
munity our expenses. Please
help us out by renewing promptly.

DE LAVAL

DE LAVAL

Three Years Ago a Man Wanted a Cream Separator

He would not give \$65 for a No. 10 De Laval
but thought one said to be "just as good" for
\$50. A few days ago he threw away the "just as
good" and bought a No. 10 De Laval. Are
YOU about to make the mistake he made three
years ago? It doesn't pay to experiment with
cream at present prices

Sowing and Reaping

Before you Reap Your
Harvest you have got to
sow your seed. You can't
get a crop otherwise, and
even then there is a
chance that some acci-
dent may rob you of the
fruits of your toil.

The business man has
got to sow his seed the
same as the farmer, if he
is to get the harvest of
increased business.

ADVERTISING is the
seed.

You cannot hope to get the harvest
of increased business unless you ad-
vertise.

Mr Business Man, STANDARD Ad-
vertising has passed the germination
test. Try it, and you will get your crop
when the farmer gets his, or even sooner
